Program Manager & Builder · Architecting Human-Centric Systems

SUMMARY

Program Manager at YouTube/Google who ships production software. I run global Trust & Safety operations across 10 sites and 800+ moderators, and I use AI to build the tools I wish existed: full-stack apps, custom platforms, and automation systems. If there is a problem and no product to solve it, I make one.

SKILLS

Domains: Trust & Safety Operations, AI Safety & Innovation, Content Moderation at Scale, Vendor Program Management, Quality Systems, UX Research, Curriculum Design

Build Stack: React, Next.js, TypeScript, Node.js, Supabase, Prisma, Tailwind CSS, SQL, Python, Vercel, Google Cloud

AI Toolkit: Claude, Gemini API, AI pair programming, Prompt engineering, AI safety protocols

EXPERIENCE

Quality & Continuous Improvement Program Manager

11/2024 – Present

YouTube · Playa Vista, CA

- Run global quality experiments strengthening child-safety content-moderation standards, generating insights that shape policy and process.
- Direct quality programs across international vendor partners and 10 global sites (Poland, Portugal, Malaysia, India), overseeing 800+ content moderators to ensure uniform policy application.
- Built custom SQL dashboards that reduced vendor pain points and improved performance reporting by 20%.

Legal Ops Program Manager

05/2022 – 11/2024

Google · Playa Vista, CA

- Directed cross-functional initiatives across 5 vendor operations (200+ headcount), using user research to find pain points and ship solutions.
- Built a new quality-control workflow for error management that reduced internal errors by 45%.
- Shipped 4 end-to-end operational projects, improving risk identification and mitigation through new data channels.

Quality Analyst, Trust & Safety

09/2020 – 05/2022

YouTube · Farmington Hills, MI

- Evolved the Quality Assurance system to identify, measure, and improve processes, tools, and training.
- Built and deployed a content-enhancement tool that reduced handle time on long or intricate videos by 10%.

User Experience Design Lead

09/2018 – 08/2020

the CUBE · East Lansing, MI

- Ran ethnographic research and contextual inquiries to design immersive web experiences for 8 journal partners in the publishing group.

SELECTED BUILDS

Matinee — cloud-connected e-ink display, solo build across hardware, firmware, cloud, and app · matinee.ink

Level Up — AI-driven career-development platform, built for and taught at Quinnipiac University

The Portfolio — this site: an interactive 3D experience with eleven case studies, built solo with AI
